The image is a collage of three distinct visual elements. The top left element is a promotional poster for the Indian game show '10ka Dum'. It features a portrait of actor Salman Khan on the left and the show's title '10KA DUM' in large, stylized, metallic letters on the right, all set against a yellow background. The bottom left element is a photograph of a herd of antelopes, likely blackbucks, grazing in a dry, open landscape under a clear blue sky. The rightmost element is a colorful cartoon illustration of a game show set. It depicts a host in a pink blazer and purple skirt standing behind a podium with a microphone, gesturing towards three contestants seated at a desk. The desk has a digital screen displaying three icons: a red 'X', a green checkmark, and another green checkmark. The background is a stage with purple lighting and silhouettes of an audience.

How many of them are there?

Looks like 10 lakh
